

Mark James Espinosa

Full Stack Web Developer

09754652169 | jamesespinosamark@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Web Developer with 2+ years of hands-on experience building, optimizing, and maintaining production web applications. Proficient in Vue.js, Nuxt.js, Laravel, PHP, and RESTful API integrations. Experienced in diagnosing and resolving performance bottlenecks, implementing OAuth authentication, and translating Figma designs into responsive, pixel-perfect interfaces. Comfortable collaborating across frontend, backend, and ERP integration layers in fast-paced remote environments.

WORK EXPERIENCE

Web Developer | Posbang Corporation

April 2024 – Present

Technologies: PrestaShop, PHP, Vue 2, Nuxt 3, Laravel, Yii, Node.js, Tailwind CSS, REST API, ERP Integration

High-End Camera Rental Platform (PrestaShop)

- Diagnosed and resolved a critical performance bottleneck in a custom PHP controller (**hubshake.php**) that was making redundant ERP API calls on every page load reduced page load time from several minutes to a few seconds.
- Collaborated with ERP (Hubshake) developers to scope and limit API calls to only the pages that required live pricing data, improving system reliability and user experience.
- Built custom PrestaShop modules including a Hubshake-to-PrestaShop customer details sync and a custom forgot password flow.
- Managed ongoing frontend UI maintenance and feature updates for an existing production platform.

Witty Manager V2 — Internal Project Management Tool (Vue 2 / Laravel / Yii)

- Implemented Google OAuth 2.0 login via Laravel API, enabling single sign-on for all platform users.
- Developed a Quick Menu feature giving users rapid in-app navigation to frequently used tools, reducing clicks and improving daily workflow efficiency.
- Redesigned and cleaned up core UI screens (login, signup, homepage) based on stakeholder feedback, improving visual consistency across the platform.
- Integrated and consumed REST API endpoints across frontend Vue 2 components, ensuring data integrity between frontend and backend.

Witty Manager V3 — Ground-Up Rebuild (Nuxt 3 / Node.js / Tailwind CSS)

- Translated complex Figma designs into responsive, pixel-perfect frontend components from scratch using Nuxt 3 and Tailwind CSS.
- Collaborated with the backend team on a Node.js API layer, ensuring seamless data flow across all frontend modules.
- Applied Nuxt 3 best practices (SSR, composables, layouts) to build a scalable, maintainable frontend architecture.

Web Developer Intern | iPhiTech IT and Digital Solutions

February 2023 – June 2023

Technologies: HTML, CSS, JavaScript

- Converted design mockups into fully functional, responsive web pages using HTML, CSS, and JavaScript.
- Delivered client-ready websites within project deadlines, contributing to multiple live deployments during the internship period.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Java, C

Frontend: Vue.js, Nuxt.js, React, Next.js, Tailwind CSS, Bootstrap, HTML5, CSS3

Backend: Laravel, Yii, Node.js, RESTful API Design, OAuth 2.0 (Google Login)

CMS / E-commerce: PrestaShop (custom module development)

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Apache, VS Code, Figma, ERP Integration (Hubshake)

EDUCATION

Bachelor of Science in Information Technology

Central Luzon State University (CLSU) | *Graduated 2023*
